If you follow my Instagram stories then you know I went to the press preview for the **Kips Bay Decorator Show House** in New York City last week. I had such a great time viewing all the fabulous rooms in this seven level upper east side town house. There are 22 of the best designers participating in this year's fundraiser, so it's impossible to showcase them all here. In fact, I had so many favorites, I had to edit down this post twice!

The Kips Bay Show House is a great way to see the up and coming trends in design. I couldn't help but notice a lot of curved couches and Art Deco pieces in general. Wallpaper was very popular, especially on the ceilings. Two standout wallpapers were murals and **Phillip Jeffries' cracked cork**, which after seeing it in person, I'm now obsessed with!
