Found Storage

Stretch your home's storage capacity by taking advantage of spaces that might have otherwise been wasted.

Tucked Away. An expansive bank of built-ins under the eaves claims forgotten square footage as pretty and practical bedroom storage.

Dual Purpose. With seating for 20, a generous banquette encourages guests to gather and enjoy gorgeous views. Cushions on the bench-style seating lift for extra storage.

Reclaimed. A run of staircase built-ins keeps clutter hidden. Organization is a cinch for small items near the high-traffic areas of the home.

Found. Tapping into unused space, a beautifully constructed shelf at the foot of the tub provides elegant storage for linens, bath salts, and decorative items.
